

5G O-RAN Booster

Upgrading the Industry and Venturing into Overseas Markets

Develop innovative solutions related to people's lives, such as smart transportation, smart healthcare, and smart disaster prevention, as well as establish an ecological chain for Taiwan's smart urban and rural industries based on 5G O-RAN technology.

Key process to upgrade the industry

Industry Proposals

Understand industry pain points and focus on market needs.

Gain insight into the pain points of the domestic industry and focus on the needs of overseas markets to create innovative services in line with the 5G open network architecture.

Central Subsidies

Inventory industry gaps and accelerate the digital transformation.

Facilitate innovative applications and technology R&D through policies to assist the digital transformation of domestic industries and establish an ecological chain of smart urban and rural industries.

International Export

Provide innovative solutions to secure international business opportunities.

Enhance proprietary 5G netcom-related technologies of the domestic ICT industry, and establish exemplary cases of digital transformation of domestic industries for export to the international market through the development of innovative 5G O-RAN solutions.
